

// Andrei Hudovich

Senior Front-end Engineer

Profile

I'm a highly skilled senior front-end engineer (Vue.js stack) with over 8 years of experience. During that time, I have been an important member of diverse teams, showing the ability to adapt to business needs. I am looking for new career challenges to further my skills.

Employment History

Senior Front-end Engineer, LolaDB, United States

JUNE 2022 - FEBRUARY 2023

- Worked to solve complex problems using the latest Web Standards.
- Architected the product's front-end structure (Vue.js, Pinia, Typescript, Vite).
- Accomplished the development of the sophisticated Vue.js UI components.
- Developed the open-source component library.
- Crafted responsive marketing landing pages.

Senior Front-end Engineer, Casago, United States

OCTOBER 2021 - APRIL 2022

- Was one of the team members who joined the new company after Nokori's acquisition.
- Helped to adapt and embed the new assets into the franchise ecosystem.
- Developed the ground for the new project based on Vue.js framework.

Senior Front-end Engineer, Nokori, United States

JULY 2020 - OCTOBER 2021

- Acted as a primary and sole front-end developer of the team.
- Was responsible for development of the Vue.js single-page application.
- Worked on responsive static marketing pages.
- Managed the migration from Vue 2 codebase to Vue 3 and Composition API.

Front-end Developer, Freelance platforms, Worldwide

JANUARY 2015 - JULY 2020

- Kick-started my developing career as a PSD-to-HTML developer.
- Helped dozens of clients around the world to build and deploy their websites.
- Worked hard to meet client deadlines.
- Matured as a self-taught senior front-end engineer
